DIRECTIONS FOR USE

Post a copy of this label at the treating site, or mobile treatment vehicle. This product is a pre-manufactured pouch intended for use as a groundline remedial treatment for wood utility poles only. Do not install on utility poles which are submerged or at the waterline. Permission must be obtained from the owner of the poles before beginning treatment. Laboratory testing has shown that this product can control creosote tolerant *Neolentinus lepideus* fungi, pentachlorophenol tolerant *Glucophyllum trabeum* fungi, and CCA tolerant *Postia placenta* fungi. The effectiveness of the remedial treatment will be dependent on a number of parameters, including condition of the wood when treated, wood species, type of decay hazard, workmanship and previous/subsequent treatment.

DO NOT apply this product in a way that will contact workers or bystanders, either directly or through drift. Only protected handlers may be in the area during application.

DO NOT apply this product directly to freshwater habitats (such as lakes, rivers, sloughs, ponds, prairie potholes, creeks, marshes, streams, reservoirs and wetlands), estuarine/marine habitats.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

To apply CU-BOR, excavate the soil away from the pole to a depth of 40 cm. It may be necessary to excavate up to 50 cm below ground depending on the extent of decay. The pole stability must not be compromised by the excavation. Consult a professional for guidance. Wire brush the surface and remove adhering soil/any damaged wood. To apply CU-BOR, first measure the circumference of the pole. Select a CU-BOR Pouch which is 6-12 cm longer than the circumference of the pole. Unfold the CU-BOR Pouch and lay it out flat. Using a safety knife, slit on the dotted lines of the pouch; being careful not to cut through the outer backing (seal accidental punctures with reinforced tape). Do not cut on the lines where the pouch will overlap. Wrap the pouch around the excavated pole with the cut, dotted lines next to the exposed wood. The pouch should be installed at least to cover the wood surface 10 cm below the last evidence of decay, without exceeding a depth of 50 cm below ground, and 8 cm above the groundline. More than one pouch may be used in special cases such as on a hillside or an embankment. After application of the pouch, wrap the top of the pouch with a large reinforced tape, allowing the tape to overlap, and staple or nail the pouch near its top, above the seam. Backfill and tamp soil firmly, mounding within 2.6 cm of the pouch top. Do not backfill above the top of the pouch. The above-ground portion of the treated area must be protected by suitable mechanical means to prevent damage to the pouch and/or access to the preservative by pets, farm animals, and people.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

HAZARDS TO HUMANS AND DOMESTIC ANIMALS. Causes substantial, but temporary eye injury. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling.

PERSONAL PROTECTIVE EQUIPMENT: Wear goggles, long pants, a long-sleeved shirt and shoes plus socks during mixing/loading, application, clean-up and repair. In addition wear chemical-resistant gloves during mixing/loading, clean-up and repair. Remove personal protective equipment immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing. Wash the outside of gloves before removing. Remove clothing/personal protective equipment immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrate. Do not reuse them. For cleaning/maintaining personal protective equipment, use detergent and hot water. Keep and wash personal protective equipment separately from other laundry. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by disposal of equipment wash waters.

PHYSICAL OR CHEMICAL HAZARDS: Use only with adequate ventilation.

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Store product in original container only. Do not store with fertilizers, food and feed. If product has been spilled or is leaking, remove the source of the spill or leak. Recover free liquid. Spread absorbent, then pick up and place in containers. Then where applicable, wash area with detergent and water.

FIRST AID

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically. Do not induce vomiting. Avoid alcohol.

DISPOSAL

1. Dispose of the cardboard container in accordance with all provincial regulatory agency requirements.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on this label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
